### COARLIKS EXTRA HIGH ENERGY

High specification protein and energy tub for ewes and lambs.

- Can be fed as a pre tupping supplement to boost conception rates and then throughout pregnancy and lactation as a supplement to forage to maximise ewe performance.
- Contains 4 quality protein sources and rumen protected fat. No added Urea, therefore EHE is suitable for feeding with silage and spring grass.
- High levels of Vitamin E and Selenium to help boost lamb survival and immunity.
- Full complement of major minerals, trace elements and vitamins including good levels of magnesium and sodium, also contains fish oils.

**A 25Kg Extra High Energy**

**Mineral Tub is £22.00**

**6+ Tubs are £20.00**

**Buy 12 Tubs and get one**

**Free of Charge!**

- High Trace Element and Vitamin specification.
- Top quality ingredients
- Palatable and durable.

**'Quality without Compromise'**

### WHY USE A CALF COAT?

- Optimum calf age range is birth to 5 weeks, by then the calf is eating sufficient concentrate.
- Improve liveweight gain by maintaining body temperature.
- Helps sick calves to recover and maintain body temperature.
- Calf coats support the immune system during the first few days and prevent diarrhoea problems and other illnesses.
- Protection from sudden changes in the weather.
- Avoidance of cold stress in new-born calves.

The **Coar Calf Coat** is a superb quality product - compare it to competitor products!

- Water Repellent and insulated for extra comfort.
- Machine washable (40°).
- Micro fleece lining with 150gm fill that helps to wick away moisture keeping the calf warm and dry

**Very Competitively Priced!**

~

### BENEFITS OF PAYING YOUR INVOICES BY BACS

- Save money on Banking Charges
- Save money on Postage Costs
- Know exactly when funds will leave your account

**BACS is simple & Cost Effective!**

## EWE-REKA LAMB MILK

### Now in Stock

Ewe-reka is the only Lamb Milk made with ewe's milk (ewe milk @ 20% inclusion).

4 oils, safmannan yeast and plant extracts (increased digestibility - competitors have only 2 oils. Plant extracts and Safmannan minimise clostridial bloat and scour).

Ewe milk aroma (tastes like mothers milk).

Easy mix (either warm or cold).

~

### TAKE OFF

#### Lamb Colostrum Supplement

- Contains Ewe milk
- Provides 3 types of energy, ensures heat generation and maintains health in critical first 24-72 hours of life.
- Ideal for difficult births, hypothermic, sick and multiple birth lambs.
- Easy to mix
- One Tub feeds 42 lambs and is priced at £16.99

#### STORE AND THAW COLOSTRUM REFILL BAGS

Transparent multi-layered plastic bags that provide hygienic storage of calf colostrum. The screw top prevents leakage during thawing and the wide mouth allows for quick filling. **Available in packs of 40 or sold in single units.**
