DAIRY ENGINEER VACANCY

We are looking to recruit a suitable candidate to become a Dairy Engineer, and join an experienced team of Engineers working from our **Garstang** branch.

The full time permanent position will involve the service, repair and installation of Milking Parlours and associated equipment. An engineering or agricultural background is preferred but not essential as training will be provided.

Applications are invited from candidates who are well motivated, competent in practical skills, have the right 'hands on' attitude and a willingness to learn.

To apply please send your CV or complete an application form which is on our website www.coars.co.uk

This is an excellent opportunity for a person with farming experience to start a career in milking machine engineering!

HEALTHY UDDER MASTITIS TUBES

Natural mastitis tubes with a very high success rate. Milk out affected quarter and apply 2x 'Healthy Udder Mastitis Tubes' and follow this up with 1x Tube per milking for 3 days - or until milk is clear.

- Improves microcirculation
- Stimulates the immune system
- Supports a healthy udder
- Non antibiotic
- No milk withdrawal = sell more milk

Also available

Healthy Udder Tubes SCC

Non-Antibiotic tube to promote better lymph flow and have a positive effect on reducing somatic cell numbers
