TWENTY ONE – FLY CONTROL

Twenty One is a uniquely formulated product for professional use against flies in livestock housing by application to walls and ceilings of agricultural buildings.

- Can be both sprayed and painted.
- **Effective for 12 weeks.**
- Attracts insects fast with pheromones and attractants.
- Kills by contact or ingestion.
- See results straight away, kills the fly almost instantly.

Twenty One is most effective when painted in strips and made with the consistency of paste. Paint directly on to problem areas or apply to boards and hang in the vicinity.

A 1KG pack contains 4x 250gm sachets.
125gm of Twenty One to 5Ltrs of water treats a 100sq. meters of surface area.

COXICUR

Broad spectrum disinfectant, effective against viruses, bacteria, moulds and yeast.

- DEFRA approved terminal disinfectant
- **Highly effective against Coccidiosis, Cryptosporidium, TB, viruses, bacteria, moulds and yeast**
- Ideal for use in calf housing, calving areas and lambing pens
- Free from QACs and cyanuric acid – ideal for dairy farmers
- Easy to apply by spray or foam

5Ltrs will cover 555m²

EVANS MASODINE CONCENTRATE

Premium quality concentrated Iodine teat dip and spray

- Concentrated 1:3 iodophor teat dip / spray
- UK authorised veterinary medicine
- Reduces the risk of infection by leaving an antiseptic film of Iodine adhering to teats which have been treated by dipping or spraying
- Contains both Glycerol and Sorbitol to help keep teats soft and supple
- Can be used as an udder wash and cluster dip at 1:500 dilution
- Dilute at 1:7 for alternative economical usage

COARLIKS ALL PURPOSE

Premium quality molassed mineral licks

- For all classes of cattle
- Supports the growth and development of young stock
