COARLIKS EXTRA HIGH ENERGY

High specification protein and energy tub for ewes and lambs

- Can be fed as a pre tupping supplement to boost conception rates and then throughout pregnancy and lactation as a supplement to forage to maximise ewe performance.
- Contains 4 quality protein sources and rumen protected fat. No added Urea, therefore EHE is suitable for feeding with silage and spring grass.
- High levels of Vitamin E and Selenium to help boost lamb survival and immunity.
- Full complement of major minerals, trace elements and vitamins including good levels of magnesium and sodium, also contains fish oils.

Available in 25kg and 100kg tubs

COARLIKS BREATHE EASY

- Premium specification protein and energy molassed lick designed to reduce respiratory issues in calves and young cattle. Breathe Easy contains essential oils, garlic, vitamins, trace elements and minerals to help maintain a healthy respiratory system in young stock.
- This is a great product and works significantly better than many competitors products.

Available in 15kg tubs

CHARCOVET GEL SYRINGE

The Charcovet Gel Syringe is an activated charcoal gel for the treatment of digestive issues in calves, foals and lambs. The activated charcoal in the Charcovet Gel Syringe retains gas and binds the liquid component of diarrhoea, allowing the animal to produce a more healthy stool. This may alleviate bloating and cramping, boosting their mood and willingness to drink.

For calves give one tube per calf per day

Buy 5 Charcovet Gel syringes and get another one free of charge!

SECOND HAND MARKET

Urban Alma Pro computerised calf feeder c/w 4x hygiene stations still in working order.

FLUKANIDE

Liver fluke is one of the most economically damaging parasites affecting sheep in the UK and Ireland. Infection can significantly impact flock productivity and animal welfare.
Flukanide provides effective control of adult and immature liver fluke, helping protect flock health and farm productivity.

- Specifically formulated to combat liver fluke infections in sheep.
- Contains 3% Rafoxanide – recently registered in the UK
- Proven to be up to 100% effective against 6 week old immature fluke
- Each 5L pack treats approximately 200 sheep
- Meat withdrawal period is 78 days

ROCKIES MINERAL/SALT LICKS

Rockies provide mineral and trace element supplementation in a simple and cost effective way and are manufactured from the purest salt available.

Until the end of December buy 4 boxes of Rockies and get another box Free of Charge!
